U. S. MAY REJECT ITALIAN OFFER OF CO-OPERATION

As Neutral Nation, Can Best Maintain Friendly Relations With Turkey Without Assistance.

OFFICIALS MUCH INTERESTED

A report from Captain Decker, of the Tonnessee, earlier in the day, told of the departure of 500 refugees on his vessel from Jaffa, but did not mention other incidents involving the American ships on the Syrian coast.

Government officials, who are skeptical about reports that the North Carolina threatened to fire on Tripoll, expressed the opinion to-night that the United States, as a neutral nation, could best maintain its friendly relations with Turkey if it dealt with the situation there without assistance. It was suggested, therefore, that the Italian proffer of co-operation might be rejected if made officially to the United States.

Mr. Newing is pompously and pursily funny as the chamberlain; Miss Perry is a dark and handsome queen, and—oh, it's impossible to name them all! But, above all, those wonderful children who are the maids of honor and the seven dwarfs! They never like graceful bits of highly organized mechanism—so perfectly drilled are they—and yet they are always children. Those dwarfs sid around in a semicircle and repeat a sort of catch in poetry that few groups of men could deliver without long rehearsals.

The bill opens with a turn not programmed, but the velvet table cover bears the word "Delessio," so that must be the name of him, or them. For the contortionist-whirlwind-Arab-tumbler, who performs so many varied acrobatic feats with such speed that the eye can hardly follow him, turns out to be a twin. Aside from the genuine skill and agility of this twin, the point of the act consists in the opportunity it offers the avdeince to guess which is the contortionist, which is the tumbler and which is the older anyhow.

Following the twin comes Walter

sort of catch in poetry that few groups of men could deliver without long rehearsals.

Mr. Berthelet's settings have been referred to, but one, in particular—a forest scene—is one of the most beautiful ever seen on the stage in Rich mon'd. The costumes, too, have been fashioned with the utmost care and with the strictest attention to detail. But, after all, "Snow White and the Seven Dwarfs" is Mr. Berthelet's achievement.

There will be matinee performances every day throughout the rest of the week' owing to the length of the performance, the curtain will go up at night at 3 o'clock.

If you fail to see "Snow White and the Seven Dwarfs" you will certainly regret it.
